PROGRAM POLICY

Office of Community Development (OCD) award recipients must provide for and encourage citizen participation and ensure residents will be given reasonable and timely access to local meetings, information, and records relating to the proposed and actual use of CDBG funds. The purpose of the citizen participation process is to assure CDBG-funded programs address locally identified needs benefitting low- and moderate-income (LMI) individuals or remediating conditions of slum and blight.

Local Citizen Participation Plan

Local governments applying for CDBG-funded programs must adopt a citizen participation plan. The plan, at minimum, must include:

1. Accommodations for participation by LMI individuals, those who are residents of slum and blight areas, and of areas in which Section 106 funds are proposed to be used.
2. Standards for reasonable and timely access to local meetings, information and records relating to the grantee's proposed, and actual, use of grant funds.
3. Provisions for technical assistance to groups representing LMI individuals requesting such assistance in developing project proposals.
4. A complaint process which provides for a timely response to complaints and grievances, within 15 working days where practical.
5. Access to public hearings where citizens may provide comments and questions at all stages of the community development programs, including the development of needs, the review of proposed activities, and review of program performance. Hearings shall take place after adequate notice, at times and locations convenient to potential or actual beneficiaries, and with accommodation for people with a disability.
6. Provisions for meeting the needs of non-English-speaking residents in the case of a public hearing where a significant number of non-English-speaking residents can be reasonably expected to participate.

The local government must review, update, and re-adopt the citizen participation plan regularly, no fewer than every six years. Where the local government is a county which applies on behalf of dedicated cities, the county must fulfill citizen participation requirements on behalf of the jurisdiction(s).

General Requirements

A minimum of two public hearings are required before a local government may apply for funding. Together, the hearings must cover community development and housing needs (including affirmatively furthering fair housing), development of proposed activities, and a review of program performance. Each hearing must be preceded by adequate public notice.

Temporary authority for members of a public body to meet by means of teleconference or video conference because of the COVID-19 pandemic expired on June 30, 2022. Pursuant to Ohio's Open Meetings Act, local governments must provide accommodations for the public to attend the public hearing in person. Public bodies may broadcast or livestream meetings if the public has the option of attending the meeting in person.

First Public Hearing

The first public hearing should be conducted at the initial stage of application preparation. Information to be conveyed at the first public hearing should include:

- National and state program objectives.
- Estimated amount of funds available to the community.
- An overview of available programs and their requirements.
- Performance of the locality in past CDBG programs, if applicable.
- Date of the second public hearing.
- Date the application is due to the OCD in OCEAN.
- Citizen views and comments.

The community must maintain a sign-in sheet and minutes for the hearing in its files.

Notice of the hearing must be published at least seven days prior to the hearing, and at minimum must include a summary of the programs and amounts available. For notification methods, see below.

Second Public Hearing

The second public hearing should be conducted after projects have been identified by the local government, but before applying to OCD. The second public hearing should take place no fewer than seven calendar days after the first public hearing to allow for public comment. The second public hearing should cover project-specific information, including:

- Which projects the community has selected to be included in the application.
- The amount of CDBG and other funds allocated for each project.
- The location of each project.
- The timetable for completion of each project.
- Which CDBG national objective each project will meet.
- Citizen views and comments.

The community must maintain a sign-in sheet and minutes for the hearing in its files.

Notice of the hearing must be published at least seven days prior to the hearing, and at minimum must include a list of selected projects, locations, and project amounts. For notification methods, see below.

Amendment Public Hearing

A public hearing may also be required as part of the grant amendment process if the proposed amendment constitutes a substantial change to the scope of the grant agreement. The primary purpose of an amendment public hearing is to provide citizens with an opportunity to review and comment on such a substantial change in a grantee's CDBG program. The notice publication and requirements for an amendment public hearing should follow the format for the second public hearing detailed above.

Methods of Notification

The community may choose between the following two options for notifying the public of an upcoming hearing:

1. Publication in a Newspaper

A standard public hearing notification must be published in the legal section or in the non-classified section of a newspaper of general circulation at least seven days prior to the public hearing.

2. Public Posting and General Outreach

No newspaper publication is required, but the community must meet the following requirements:

- a. A notice must be posted in common areas of at least five local administrative offices (i.e., city hall or county administrative building) where it is accessible and visible to the public at least seven days prior to the public hearing; and,
- b. The community must utilize at least five outreach outlets listed below to notify the public about the hearing:
 - Community website
 - Public social media accounts
 - Public library or school
 - Cable TV public access channel

- Community center
- Community Action Agency
- Public Housing Authority
- Local workforce development office
- Other public or private agencies and institutions serving the general public
- Direct contact with households (i.e. mailing, flyer, etc.)

COMPLIANCE MEASURES

OCD will review citizen participation compliance during the monitoring of the grant files, prior to grant closeout.
